As an IT company with 30+ employees involved in Software

Development and Staffing , multiple telephone lines enable us to manage our operations smoothly, and Jio IP Centrex helps us a lot in this pandemic situation to reach people.” Senthil Kumar Sangameshwaran Head-Project Delivery Ana-Data consulting Private Limited “We have recently started using JioBusiness Solution. My business productivity has increased as we depend a lot on internet access. Moreover, add-on services help us make greater profits. We Hope that Team Jio will continue to give their service and support to businesses like ours.” Andrew Samuel CEO ARK Tree LLP “I am happy that we have taken JioBusiness Solution. It is a wonderful product as we are getting multiple services in one. I am very impressed by different features this solution offers and I am satisfied with overall experience with Jio.” Ravi Manager Mangal Ply and Laminates “We are amazed with the speed and stability of internet along with the different business solution features. Thanks to the Jio Team for introducing packages business solution as it has helped us to speed up our office operations. Website content uploading is possible now because of the simple and reliable JioOnline services. Microsoft 356 and JioMeet solved our online meeting and email issues and allowed us to join meetings with different branches across cities Thanks for providing such.” Swapna Saha Gen. Manager (Admin) Product- JioBusiness BSL Ltd “I am sincerely appreciate your efficient, gracious customer service, the level of accountability you have demonstrated on bringing JioBusiness solution to all concerned and the way you conduct business as a whole. I have and will continue to recommend your services to other companies and contacts. Our team could not be more Micheal Blesson M Proprietor Sharon Media Production “I would like to express my gratitude for the amazing work done by Mr. Arun on activation of Jio Business Solution for our marketing department in Anna Nagar during pandemic. Your timely activation is impressive, and the service has exceptional benefits.” Usha P PA to CEO Velammal Educational Trust “JioBusiness works well! The feature which makes it amazing is the high internet speed at broadband price. The other add-on services like JioMeet and JioOnline are taking our business to a new level. Microsoft 365 and Landline connection (IP Centrex) helps us immensely to connect our cell phone with our office landline. We are not missing any calls from our customer with this feature. Jio Business is a good Jio product for small organization like ours. ” Parag Sonawane Associate Admin Eximius Management Group “I got to hear about the new Bundle Plan through social media and was attracted towards the new features included under one rental. I am happy with the way the installation team installed the connection. I am also delighted with the 1Gbps speed of the connection which was offered to me under 5001 rental. Sunil Gangurde Head (Accounts and Infrastructure) Environmental Management Centre LLP “We are happy to use JioBusiness solution as it has saved our time to deal with multiple vendors for different solutions. Such an innovative product developed by Reliance Jio for the Enterprise segment. We are getting good internet speed with benefits of voice call and simultaneous ringing on landline and mobile. Deepak D’Souza (Managing Director) LLOYD SHIPPING & FORWARDING AGENCY “We have been in this industry for more than 50 years. With the change of time, everything has now turned online. Our major requirement was Internet to get pretty fast

and speedy. Earlier we used local cable service for broadband purposes but then I got introduced to JioBusiness with help of Mr. Kamal. The introduction is very good and effective. The best feature of JioBusiness is that it comes with symmetrical bandwidth. It is 150 Mbps speed which gives ultimate solution to all our Internet problems. Additional benefits are the 2 board line connections and Microsoft 365 licenses. I will definitely recommend JioBusiness for everybody.” Vinit Pujara Director D P Logistics “We have been using JioBusiness Plan for the past two weeks and we are amazed with the speed and stability in Internet speed along with the different business solution features. Thanks to Jio Team for introducing packaged business solution as it has helped us to speed up our office operations. Website content uploading is possible now because of JioOnline service which is simple and reliable to use. With this service, new uploads of our products can be displayed on our website and customers can be updated on the same. Vijay Shinde Head IT Services Birdy’s “The speeds for JioBusiness Broadband services never fail to impress as they are the best in the market. I am amazed with the crystal clear voice clarity that the IP Centrex has to offer. It solves a lot of problems for an organization like us who rely on landline services. The fixed mobile convergence facility is a true life saver especially during these testing times of lock down. Now we never miss a business call. Vighnesh Surve Accountant Solitaire Ornaments India Pvt Ltd “We are happy to use your Jio Business solution an innovative product developed by Reliance Jio for the Enterprise segment. Your Internet services is uninterrupted and fast also we have received IP Centrix connection which enables us to not miss any calls. It also has Microsoft licenses. With this new concept of Jio of providing multiple things in a single product has saved our time to coordinate with multiple vendors. Vishal Sangani Director NexusNine Global Private Limited Stepping stones to success Extensive Reach Nationwide AirFiber, Fiber and 4G/5G coverage for businesses. Future-Ready Network Resilient 4G/5G architecture, ready with dual-stack all IP network. Still have questions? What is JioBusiness? How is it different from Jio? JioBusiness is a division of Reliance Jio Infocomm. It provides digital solutions to businesses of all sizes and sectors. JioBusiness services span across Connectivity, Security, Mobility, Voice and Collaboration, IoT, Marketing Solutions, and Cloud. Jio is one of the leading mobile and network connectivity providers in the country, and it offers connectivity to individuals, whereas JioBusiness is the B2B arm of Jio committed to serve businesses. JioBusiness caters to which customer segments? JioBusiness caters to businesses of all sectors and sizes. The customer segments range from Strategic and Large Groups (SLGs), Small and Medium Businesses (SMBs), to startups and micro businesses. We also serve different kinds of industries through our industry-specific solutions. What services can customers expect from JioBusiness? JioBusiness provides services across Connectivity, Voice & Collaboration,

Mobile, Security, Cloud, Marketing, Business Applications, IoT and Cloud. We continuously add innovative services to our portfolio including bundled solutions to cater to multitude business needs of our customers. What does JioBusiness bring to the table, as compared to the other service providers? JioBusiness offers the following unique advantages as compared to other service providers: Widest network reach in the country that ensures connectivity even in the remotest locations in India Highly scalable and future-ready network infrastructure that offers maximum uptime Highest number of customer touchpoints, Digital Self-Care and 24x7 Assisted Care to support customers Customer-centric approach and strong commitment to SLA Partnerships with industry leaders from across the globe, to provide best-in-class technology and solutions Can I use home Internet for business? Although it is possible to use home internet for business, you may have to work with lower bandwidth and performance. In case your business does not require much internet, you can select a suitable home internet plan but if your business requires extensive internet usage, it is advisable to get a good internet for business solutions.
